### Cash Grain Markets Show Some Strength

Austin, Nov. 7 (F-S) - Texas Grain Markets: Cash prices offered Texas High Plains grain producers were holding steady to trending mostly higher for Grain Sorghum, Wheat and Corn. Soybeans were mostly steady on Monday afternoon. Prices paid to the farmer, F.O.B. elevator as of 4 p.m. Monday (Sorghum per hundredweight): Wheat, Corn, Soybeans per bushel: Area North of the Canadian River: Grain Sorghum \$5.00-5.15; Wheat \$5.27-5.45; Corn \$3.25-3.35. Triangle area from Plainview to Canyon to Farwell: Grain Sorghum \$5.15-5.35; Wheat \$3.18-3.45 mostly 3.35-3.40; Soybeans \$7.85-8.05 mostly 7.95; Corn \$3.25-3.35. Area South of a line from Plainview to Muleshoe, counties of Bailey, Lamb, Hale, Floyd, Hookley & Lubbock: Grain Sorghum \$5.10-5.30 mostly 5.20; Wheat \$5.30-5.55 mostly 5.35; Soybeans \$7.85-8.05 mostly 7.95.

### Fed Cattle Stronger, Hogs Sharply Lower At Markets Monday

Around the central market circuit on Monday the fed steers and hogs were generally firm to unevenly higher as market supplies were about 1,500 smaller than a week ago and the early reports on the carcass beef trade were around \$1 higher. Another strengthening matter was the projected Monday cattle kill at 125,000, which was 10,000 below a week earlier and 2,000 about a year earlier. Slaughter cows were demonstrated firm to 50 cents to \$1 higher rates at most of these reporting markets and but were steady.

### Feedlot Trade Opens Higher, Sellers Are Optimistic, Slow

Amesbury, Nov. 8 (F-S) - Trade slow in the Panhandle early Monday, turned fairly active late. Slaughter steers and hogs were fully 50 higher. Feedlot reported fairly good interest and inquiry from most buying sources. Sales on 1,700 slaughter steers and 3,200 hogs, 1,400 head sold for the week to hogs. Steers, 1990 head choice 2-3 1150-1250 lb. 60-65. Good and mostly

# First Updating of Information in 25 Years Demonstrate Beef Important For Healthful, Wholesome Diet

Fifty-six food and nutrition writers were updated recently on the new nutritional value of beef recently at a major press seminar in New York. The seminar presented the results of a 5-year study, conducted jointly by the National Live Stock and Meat Board and the U.S. Dept. of Agriculture, which determined the nutrient value of today's beef. This data, updated information that had been in use for over 25 years.

Key findings from the study include the following:

- Three ounces of lean cooked beef provide 192 calories, equal to 8 percent of the average daily caloric intake of an adult male.
- The 3-ounce serving of beef provides 70 percent of the adult male's RDA for vitamin B-12, 26 percent for iron, 33 percent for zinc and 45 percent for protein.
- Beef protein is nutritionally complete, with all eight essential amino acids in the proper ratio for human nutrition.
- The 3-ounce serving of beef contains 78 milligrams of cholesterol, equal to 24 percent of the daily level recommended by the American Heart Association (300 mg.) and about 15 percent of the estimated average U.S. daily per capita consumption level (500 mg.).
- The 56 writers attending the seminar represented publications that have a combined circulation of 88 million and a readership of approximately 170 million. Additionally, several food and nutrition writers from various publications across the country "attended" the conference via telephone (audio conferencing), which was made possible by state beef councils.

Speakers at the seminar addressed a wide range of topics related to the nutrient data. Marilyn Chou, president, Food Advisory Board, and consultant, the Hudson Institute, spoke on the changing attitudes and usage patterns of today's beef consumers; Burdette Breidenstein, Ph.D., Meat Board director of research/nutrition information, and Isabel Wolf, administrator, Human Nutrition Service, U.S. Dept. of Agriculture, jointly presented the new beef nutrient data; John Francis, Meat Board director of consumer information and merchandising, and Anne Anderson, director of nutrition services, Texas Cattle Feeders Assn., applied the nutrient data to today's beef and defined what is meant by "lean" beef; and John W. Allen, Ph.D., professor, Department of Marketing and Transportation Administration, Michigan State Univ., spoke on present and future marketing opportunities for beef at the retail level. Kathy Kurta, of

### Texas Officials Keep Heat On Block In Feed Controversy

Senator Lloyd Bentsen called last week for an investigation into continuing discrepancies in the quality of government owned corn stored in an elevator in Plainview, Texas. "I believe that this situation merits oversight of the Senate Agriculture Committee," Bentsen said Tuesday in identical letters to Chairman Jesse Helms (R-N.C.) and Ranking Member Walter Huddleston (D-Ky.). "I would appreciate it if you would initiate an investigation by the committee to determine the facts of this matter." Bentsen had asked Secretary of Agriculture John Block on October 10 to look into an apparent sharp decline in the quality of the corn stored at the P.L.B. Grain Storage Corporation elevator in Plainview.

In his letter to Block the Senator noted that the current U.S. Department of Agriculture inventory lists less than one percent of the corn stored there as of the lowest grade. A recent sampling by the Texas Department of Agriculture, though, found 63 percent to be of the lowest grade.

In his letter, Timothy Penning noted discrepancies had also been revealed in the quality of government owned corn stored at the elevator by U.S.D.A. inspections conducted in January 1981 and March 1982.

Meanwhile, Agriculture Secretary John Block announced his opposition to a drought feed program to a group of poultrymen in Atlanta, Ga., saying that such a program could cost as much as \$4 billion and is not justified.

Block, who addressed the annual meeting of Gold Kist Inc. here Oct. 27, said in an interview he wanted no part of an emergency feed assistance program for the livestock industry. "I do not support that kind of effort because it would be too costly and too difficult to administer," he said.

Also, it would be impossible to implement feed assistance for one segment of the livestock industry without offering

### Environmentalists Still Handcuff Agriculture

Washington - The Environmental Protection Agency's removal of its 11-year ban against the use of Compound 1080 for controlling coyotes means that sheep producers will no longer be at the mercy of a vicious predator.

## **Environmentalists Still Handcuff Agriculture**

(CONT. FROM PAGE 1A)

predator." American Farm Bureau Federation President Robert Delano said today.

"Although EPA did not go as far as we might have liked, at least it based its decision on the hearing record and did not rashly act to take still another protection tool from farmers and ranchers," said Delano, referring to recent agency decisions banning several chemicals used by farmers and ranchers.

The agency's decision to permit limited use of Compound 1080 reaffirmed an EPA ruling last year allowing use of the chemical in collars worn around the neck of the coyote's prey and in "single lethal doses" applied near a bait.

"While sheep growers may have gained a reprieve, the rest of the agriculture community has to be disturbed at recent EPA actions, which have put producers at the mercy of environmentalists," the farm leader said.

"During the last several weeks, EPA has taken away 2,4,5-T, an irreplaceable tool for protecting range land and the fields; EDB, which is used to protect stored grain and to control nematode infestations for several major crops; and strychnine, which is used to control prairie dogs and rodents," Delano noted.

"Nevertheless, the environmentalists still want to protest the EPA's decision on 1080, which represents a compromise, and are appealing it in court," he said. "It is obvious they want nothing less than the banning of all chemicals used in agriculture, leaving little room for the balancing of all interests."

## U.S. Animal Health Assn. Looks To Future Progress

(CONT. FROM PAGE 1A)

rancher, is the organization's new president, succeeding John R. Ragan of Nashville, Tenn. President-elect is David U. Walker of Montpelier, Vt. Others elected to office at the USAHA's 87th annual meeting were: N.W. Kruse of Lincoln, Neb., 1st vice president; J.F. Hudelson of Denver, Colo., 2nd vice president; J.A. Cobb of Atlanta, Ga., 3rd vice president; and J.C. Shook of Annapolis, Md., treasurer.

"USAHA supports plans to celebrate 100 years of animal health next year," said Pearce. "Congress created the old Bureau of Animal Industry in 1884 within the Department of Agriculture, to protect export markets of the nation's fledgling livestock industry through research, education and disease eradication measures."

"The BAI, as it was called, began working closely with the states and

livestock producer groups to meet animal health problems head on. Such work is now carried on by successor agencies within the department.

"USAHA is recognized as the official voice of livestock producers and others in recommending changes to state and federal animal health regulations," he said. Among its 1983 recommendations, USAHA:

1 — Called for brucellosis vaccination of all female dairy calves moving into or out of all states except those recognized as brucellosis-free. The same recommendation would apply to female calves of beef breeds moving into or out of high-incidence states or areas (those with "C" classification).

2 — Praised the fulfillment of its earlier recommendation that USDA establish a national leptospirosis center.

3 — Identified research needs in two areas: 1) A better diagnostic test for contagious equine mite, a relatively new venereal disease of horses. 2) A new insecticide for horn flies. The pests are becoming resistant to those in current use.

4 — Reaffirmed support for uniform regulations throughout the United

States to assure safety and efficacy of all veterinary biological products. The association favors vesting necessary authority in USDA and strongly supports the concept of an animal biologics law.

5 — Voiced support for pilot projects underway in Ohio and Tennessee that are expected lead to development of a national animal disease surveillance system.

"USAHA's 1984 meeting will be held Oct. 21-25 in Fort Worth, Texas," said Pearce. "Meanwhile, we'll be following up on the 1983 recommendations of our organization."

## Amendments To Agricultural Deregulation Rules

Austin — The Railroad Commission has adopted amendments to a rule approved in August that deregulated the transportation of agricultural commodities in Texas.

The amendments, proposed by RRC Chairman Mack Wallace, contain additional definitions for terms that were contained in the rule. The amended rule

will be published for public comment in the Texas Register.

Eligible agricultural commodities are now defined as cotton, seed cotton, cottonseed and cotton burs; live animals, including livestock, poultry and game birds; grain (including rice); fresh fruits, nuts; and fresh vegetables; wool and mohair; raw milk; sugar cane; manure produced by livestock, poultry or game birds; and hay.

The rule exempts from RRC approved rates the transportation of these commodities for farmers, ranchers or cooperative organizations between points of production, processing or storage or to any point of first manufacture. The amendments contain additional definitions for these terms.

However, agricultural commodity carriers are still required to have a Commission permit and comply with the commission's safety, vehicle registration, and insurance requirements. Such a permit will be valid for one year throughout the state.

The agricultural deregulation rule was the result of a bill approved by the Texas Legislature earlier this year. Before the legislation was adopted, a carrier could get a seasonal agricultural permit from the Commission that would exempt certain commodities from Commission-approved rates. A seasonal permit was valid for 120 days and a 75-mile radius.

## First Woman Judge At American Royal

For the first time in the 88 year history of the American Royal Livestock Show, a woman will be judging a breeding cattle show. Mary V. Vantress of Blanchard, Okla., will be judging the Maine-Anjou cattle on Tuesday, Nov. 15. Mrs. Vantress has extensive experience in judging areas, and was also the first woman to place breeding cattle at the National Western in Denver, the Houston Livestock Show, the Iowa State Fair and the Texas State Fair in Dallas.

Mrs. Vantress was a member of the Collegiate Livestock Judging Team at Oklahoma State University. She was high individual at the National Western Contest in Denver and was a member of the Reserve Champion Team at the International in Chicago. She was chosen to judge the Maine-Anjou cattle because of her "extensive" knowledge and consistency in judging, according to Steve Bernhard, Executive Secretary of the American Maine-Anjou Association.

The Maine-Anjou events at the Royal begin with a buffet reception on Monday evening, November 14, in the American Royal Building. All interested people are invited to attend. The activities conclude with the show beginning at 9 a.m. on Tuesday, November 15. Thirty-three exhibitors from across the midwest and as far away as Washington, Colorado, and Texas have entered cattle to be exhibited before Judge Vantress.

# **Nat'l Western Show** Entry Deadline Will Be Nov. 15

Denver — Exhibitors have until Nov. 15 to submit entries for the 78th National Western Stock Show, the world's largest livestock and horse exhibition, Jan. 11-21. The only exception to the deadline is for the new "Open to the World" market show for steers, lambs and hogs which will close entries on Dec. 15. Nine cattle breeds will conduct their 1984 national shows and sales and 12 more breeds will hold shows and/or auctions at the National Western.

The national breed shows include Charolais, Simmental, Limousin, Gelbvieh, Salers, Maine-Anjou, Murray Grey, Pinzgauer and South Devon. Other breeds presenting shows and sales are Hereford, Angus, Shorthorn, Santa Gertrudis, Brangus, Chianina, Marchigiana, Red Angus and Texas Longhorn. Tarentaise and Blonde d'Aquitaine cattle will have sales only and Polled Hereford cattle will show only.

Mail order ticket forms for the National Western Stock Show rodeo are available for the 21 performances in the Denver Coliseum, Jan. 11-22. Ticket order forms for the reserved rodeo seats may be obtained by writing the National Western Stock Show, 1325 East 46th Ave., Denver, CO 80216, or by calling (800) 296-1680.

# **Stuph & Thangs** (CONT. FROM PAGE 1A)

addicted guesses indicate that agriculturists profits, while not as bright as some other lines, are in line to perk up in 1984.

This optimism is reported in this issue on the feedlot trade, where sellers are feelin' so much better, they are reluctant to sell fat cattle on the current offers. One of the things that has tantalized the folks we amusingly refer to as Economies Exports, has been the fact that all of that PIK grain was not immediately sold by the farmers. While this throws a monkey wrench in the way the Administration had it figured, it shows the farmers are lookin' ahead and also fingerin' thangs may be better sometime in the not so distant future.

One of the better indicators, which Govmint Statisticians have never figured out, is how the consumers are gonna react. Most of the retailers report better and better business. Car buyers are really buyin' and they are not gittin' in on the low end of the line in most cases.

Along with the Gloom & Doom Sayers are the politicians. At the height of the recent Recession the Democrats figured they could whip Reagan & Co., with just about anybody, even with a teammate like some Old Maid, or other kind of professional belly aker. But now that Jackson has thrown his hat in the ring, they ain't so sure.

Some of the Demos who have been makin' a career of bully raggin' ol' Ronnie around are lookin' for some kind of new hold in the cattle as catch can match the smilingly refer to as National Politics. There is one thing sure, the next year is gonna be any thing but dull, and we don't even have to buy a ticket to watch the fun. Election years

are always interesting, and always detested, before they are over. But one thing that makes America great is the fact we have a chance to vote for this one, or that one, or none of the above. We can let relax and enjoy it, because whatever happens we know you and me are gonna pay for it in the Tax Trap.

Ever thine,  
The Editor.

P.S. Uncle Dunk says now that Jesse Jackson has got into the race for the Democratic nomination, they have a real genuine rabble rouser on stage, and it will be interestin' to see just how much dust he can kick up. Dunk figures these Texas politicians who have been tryin' to push Ag Secy. John Block around on this drought feed matter are apt to learn one of the fundamentals of gittin' Govmint handouts, don't bite the hand you want to feed you. That's a negative, son! — Thassall, Brother!

Camel's hair brushes get their name from the Mr. Camel who invented them — they do not consist of camel's hair. The hair often comes from the tail of a squirrel.

Move round bales as gently as hydraulics  
without leaving your pickup seat!

# **Priefert** Hay Dolly

No winches  
No hydraulics  
No electrical connections

# **Don't Damage Your Roof!**

When you get moisture under the roof of the bale, it can't dry out and this spoils the hay. The Priefert Hay Dolly never touches the roof, never drops or rolls the bale. With no bale damage, there's seldom bale spoilage.

The Priefert Hay Dolly hooks to your pickup or tractor with only a simple pin hitch and trip rope. Because brakes

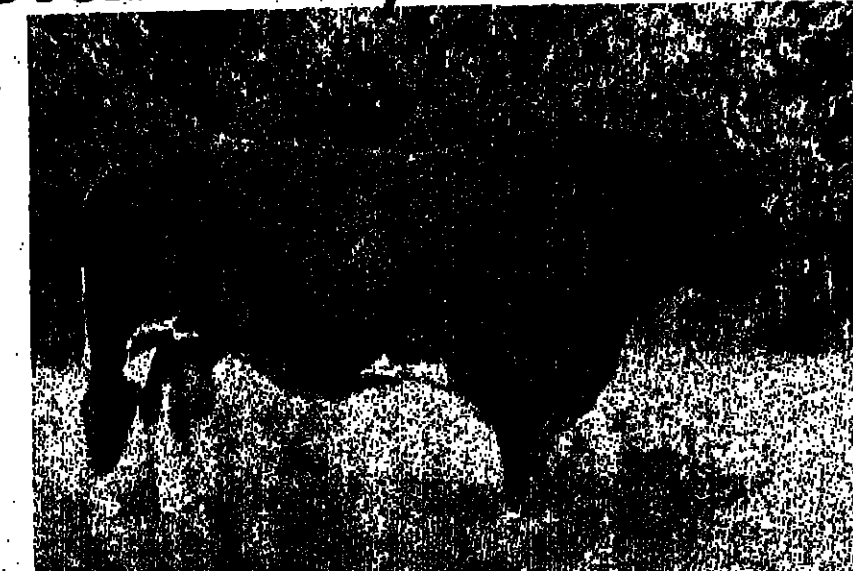

are not required, the Hay Dolly works well in bad ground conditions. The simplicity of the Priefert bale mover will amaze you and assure you of a long, productive life for this unit.

# TEXAS LONGHORN NEWS

Charline McCombs and Suzy Thomas of Red McCombs Ranches watch the action at the Y.O. and McCombs Longhorn Production Sale, October 29 in Mountain Home, Texas.

Mr. & Mrs. Robert Harrell represented Harrell Cattle Company of Dallas in paying \$41,000 for the top selling lot in Y.O. and McCombs Longhorn Sale, October 29 in Mountain Home, Texas.

## Y.O. & McCombs Post \$41,000 Top On Female

The 4th Annual Y.O. Ranch and Red McCombs Ranches Longhorn Production Sale, October 29 in Mountain Home, Texas, had a top of \$41,000 on YO Lady Samson 6661. This was a January 1971 daughter of YO Samson II bred to Classic that sold to Harrell Cattle Company of Dallas. Harrell also took two of these females embryos of Classic for \$11,000 each.

Ninety-seven lots in the sale brought \$424,290 for a \$4874 average. Eddie Woods was the auctioneer.

Waiting to get the Y.O. Ranch and Red McCombs Longhorn Sale started October 29 in Mountain Home, Texas, are (L to R) Walter Schreiner, Red McCombs, and Eddie Woods.

## Longhorn Females Show At State Fair

Bert Whippa of Grapard, TX, exhibited the champion Texas Longhorn heifer at the Longhorn show during the 1983 State Fair of Texas. The champion was Whippa's Beauty 81, a first calf heifer with calf at side. The reserve champion went to Darlin' Jill owned by Mike Doak, Fort Worth. ## Longhorn Breeding Show To Be At Denver

The Second Annual Texas Longhorn Breeding Cattle Show sponsored by the Mountains and Plains Texas Longhorn Association featuring the top breeding stock in the country, will be held January 20, at the 1984 National Western Stock Show in Denver, Colorado.

This event will be judged from horseback with cattle shown loose, in their natural state by Bob Garrett, Death, Nevada. The show will begin at 8:00 in the National Western Stockyards arena.

Cowboy artist Rygh Westby, Sheridan, Wyoming has donated \$6,000 of his cowboy art for this colorful event. There will also be \$1,500 in cash premiums awarded with ribbons and banners donated by the National Western Stock Show. Classes will be as follows: Yearling Heifers, Two Year Old Heifers, Three to Five Year Old Cows, Yearling Bulls and Two Year Old Bulls.

Mountains and Plains Texas Longhorn Association President, Larry Crouch, Leoti, Kansas said "Last year's show was a bigger success than we ever imagined. This year Longhorn breeders in the country are bringing in animals representing the best in the breed."

Along with the Breeding Cattle Show, will be the 10th Annual MPTLA Sale, the highest dollar auction at the

## New Procedure Cuts Paperwork For Oil, Gas Operators

Austin — An estimated \$9,800 will be saved each year by Texas oil and gas operators through a new filing procedure to be implemented by the Railroad Commission for one of its forms.

The change, which becomes effective Dec. 1, involves procedures regarding the Commission's Form P-4, which is a producer's authorization to transport oil, gas, and condensates from a particular oil or gas lease. The form is required by the Commission before any oil or gas can be moved from a lease.

Under the procedures now in effect, an operator attempting to meet the requirement had to file additional copies to be sent to various gatherers or purchasers that may have been involved with production from a particular lease. With the new procedure, only a single form will be required by the

Commission. Information from the form will be entered into the Commission's computer file and a copy will be produced for all the gatherers and purchasers that may have an interest in the particular lease. The Commission receives approximately 200 new Form P-4's each day. For more information about the new procedure, operators can call 512-445-1288 (oil) or 512-445-1251 (gas).

## NWGA Wins Wool Improvement Grant

Washington — On the heels of a \$200,000 program to develop lamb exports, the U.S. Department of Commerce has just announced it has awarded the National Wool Growers Association a \$400,000 contract to assist U.S. wool producers in the preparation and exportation of their products. The new award, announced late in September, will parallel the lamb program in developing an export strategy for wool products.

NWGA Board Chairman, Norman Rousset, sees the grant award as critical to the industry. "We've got to take bold and aggressive steps to strengthen and stabilize the price of wool. This program will improve the wool clip and give us information on exporting wool. If successful, prices will improve."

# **Blondes Showing In Major Texas Livestock Expositions**

During the past year the Texas Blonde d'Aquitaine Foundation has sponsored exhibits in the major livestock shows in Texas, bringing a large number of inquiries about "The Breed of the 90's".

The latest exhibit by the Foundation was in Dallas at the Texas State Fair's Pan American Livestock Exposition. Many cattle breeders, ranchers and other interested persons from Texas and Oklahoma came by and remarked at the size, muscle development, conformity and docility of the Blonde d'Aquitaine cattle from the Broken Arrow Ranch, Valdes, New Mexico and the El Papalote and Watkins Blonde Herds from Uvalde.

The Blonde breed, which originated in France, has been in evidence for over a century. It was first introduced into the United States in 1973. While the Blonde is one of the newer breeds, they have proven their performance and profitability in feed lot and carcass tests. They have a wide adaptive range based on their origin. Growing herds of purebred Blonde d'Aquitaine cattle and Blonde crosses in the U.S. are testimony to the cattle's performance. In addition to the Texas State Fair, the Texas Blonde d'Aquitaine Founda-

tion sponsored exhibits at the San Antonio Livestock Exposition, Houston Livestock Show and Rodeo, and the West Texas Fair in Abilene during 1983. Plans for the 1984 include adding the Fort Worth Exhibition to the 1983 schedule.

## **Bonus Wins Bluebonnet Brangus Invitational**

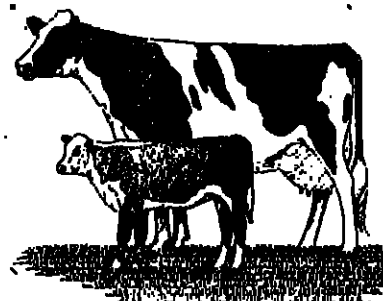

The cool, refreshing weather set the tempo for the fast paced Bluebonnet Brangus Invitational held in Brenham, TX, October 22, 1983 in memory of Dr. Herman L. Gardner. Gardner was one of the pioneers of the Brangus breed and served as president of the International Brangus Breeders Association, Texas Brangus Breeders Association, as well as the Bluebonnet Brangus Breeders Association.

Jimmy Littleton and his daughter Cheryl, of Welch, OK, carefully studied each class before selecting VCC Bonus 101/P2 as grand champion bull of the celebrated event. The Brinks Titan 675K5 son is owned by Vineyard Cattle Co., Wharton, TX and Wright Cattle Co., Castroville, TX. Bonus was named junior champion earlier in the show.

The reserve junior bull champion, BL Champ 300P, "Texarkana" walked to the reserve grand championship representing B. L. Littleton, Texarkana, TX and the Texarkana Syndicate. He was sired by DMA Champ

### AVOID CHANGING WELL LEATHERS FOR MANY YEARS

Perma-cups are molded urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wear, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell, install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't put that well for many years. Thousands are in wells that have not been retethered in 9 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 33rd year serving ranchers.

# Profitable Books You Should Have

**Tax Guide for Farmers**—A detailed 350-page book which includes all 1981 tax law changes affecting the farm operation. Designed to help minimize your tax bill, it contains nine big chapters packed with tax-saving methods and suggestions strictly for farmers. Covers tax management as a financial tool; managing farm income and expenses; land and depreciable property; tax reporting and returns; social security taxes; tax aspects of farm business organization plus additional tax-saving principles and strategies. Price \$12.95

**Facts & Figures for Farmers**—A complete reference handbook with all the facts, calculations, math, tables, and charts you need in the everyday operation of your farm. Full of facts to help calculate inputs, measure land, figure silo capacities, balance rations, calibrate sprayers, analyze budgets, estimate space needs, machinery operating costs... to name a few. 348 pages. Thirty chapters on livestock, crops, buildings, equipment, accounting, and much more. Price \$9.95

**Futures Handbook for Farmers**—An 80-page guide covering how the futures market works and how to interpret technical price moves that can help your marketing program even if you never use futures for hedging. Discusses cash/futures relationships; illustrated use of chart formation; details how volume and open interest can help you diagnose market conditions; and helps you spot support and resistance areas that may signal price turnarounds; plus more. Price \$9.95

**Brass Tacks of Animal Health**—A 464 page, hardcover volume no livestock owner should be without. It's packed with answers to the "nuts and bolts" health problems you encounter daily in your operation. Detailed, well-illustrated coverage of disease conditions, signs, causes, prevention, transmission, and treatment. Also covers handling and restraint, reproduction and birth difficulties, nutrition. Complete sections on beef and dairy cattle, hogs, and horses. A real A to Z book on how to keep your animals functioning at top efficiency. Price \$19.95

**Field and Equipment Record Book**—A very popular 160-page system for keeping those non-financial records so important to your success. It helps you organize and detail your production plans for the year, keep facts on key cropping practices, and analyze the results you obtain. Provides section for plotting your farm layout and keeping up to six years of cropping information on up to 26 fields. Also includes areas for recording vital facts on your machinery, equipment, buildings, and tools. Price \$10.25

**Buying and Selling Farmland**—An excellent book on the intricacies connected with the purchase or sale of farm real estate. Its 320 pages cover how to find and buy land with the greatest profit potential; how to determine a fair market value for your land; how to net the most when you sell; how to decide whether to add more land to your operation; how to avoid pitfalls in land transactions. Also includes answers to 130 most asked questions on farm-land purchase or sale. Complete, easy to understand. Price \$10.95

**Farm Management Guide**—Contains 336 pages packed with valuable production, management, and marketing information you can put right to work in your operation. Thirteen big chapters provide detailed facts on acquiring a farm planning and financing; taxes and insurance; soils and crop production; livestock production; buildings, equipment, and machinery marketing. A complete farm reference. Price \$9.95

**Farm Buildings (from planning to completion)**—A 432-page volume covering every aspect of planning and erecting farm buildings for swine, beef, dairy, poultry, horses as well as farm shops, machinery and crop storage facilities. Contains chapters on building economics, site selection, foundations, floors, walls, roofing, electrical wiring, plumbing, painting, insulation, ventilation, heating systems, and much more.
